## Company Profile:

R.S. Infraprojects Pvt. Ltd. Is a growing infrastructure Engineering Procurement and Construction (EPC) company in India, engaged in projects in the Power Transmission and Telecommunication sectors. The company's focus on timely execution of projects and the quality of construction services makes R.S. Infra a trusted partner for many domestic and international clients in both the private and the public sector. Furthermore our belief that the 'customer is king' ensures a long and sustainable relationship between R.S. Infra and its clients.

The company's EPC business is supplemented by its manufacturing capabilities, with three factories set up in the Greater Noida Area. Today, the company has a capacity of 65,000 MTs of galvanized steel structures per annum, with a larger capacity expansion in the works. Our cost efficient and top of the line manufacturing plants gives R.S. Infra a distinct cost and quality advantage over most of its competitors in the EPC business. Today, we manufacture telecommunication towers, power transmission towers, monopole towers, sub-station structure, solar panel mounting structures and FM/ TV towers.

With a highly professionalized and technology enabled team, R.S. Infraprojects is in the right place to meet the growing demand for quality infrastructure in India and other developing countries. We are committed to exceeding the standards of all Quality, Environment and Occupational Health & Safety requirements in all our projects

**BETTER ENGINEERING -LOWER COSTS**
